

Eliminating the Marriage Penalty

Senator Allen has voted to permanently repeal the marriage penalty that impacts thousands of Virginians. Senator Allen has joined with colleagues to introduce legislation to end this unfair tax on families once and for all.

Ending the Death Tax

Small family farms and businesses across the nation suffer from the unfair and detrimental effects of the death tax. Senator Allen has stood strong with small business owners and family farmers in ending this unjust tax.

Keeping the Internet Free for All Americans

The ever-expanding trade and commerce on the Internet is the best example of the type of innovation that can be created when government's greedy hands are kept away. Senator Allen is leading the fight to permanently ban Internet access taxes.

Letting Taxpayers Keep More of What They Earn

Senator Allen stood with President Bush to pass the Jobs and Growth Program to get our economy moving again. This legislation allows America's families to control more of their own hard earned paychecks through tax cuts, spurring investment and creating more new jobs.

Creating Jobs And Cutting Taxes

Creating Opportunity For America's Workers And Families

Results for our Families and Workers

Senator Allen worked with President Bush to pass the President's Jobs and Growth Package, which will reduce the tax burden of nearly every American family. This plan helps working Americans by directly focusing tax relief towards moderate-income families and those with children. The plan:

- Accelerates Marriage Penalty relief. An estimated 46 million married couples nationwide will benefit.
- Raises the Child Tax Credit from \$600 to \$1,000 per child this year. An estimated 34 million families with children will benefit.
- Moves millions of working Americans into the lower 10-percent tax bracket immediately, allowing them to keep more of each paycheck.

Benefiting America's Families

The Jobs & Growth Package has positively impacted:

- 13 million elderly taxpayers who will receive an average tax cut of \$1,384.
- 3 million moderate-income families whose income tax burden has been eliminated entirely.
- Married couples with two children and an income of \$40,000 whose taxes have been cut by \$1,133 in 2003, a decline of 96 percent.
- Married couples with one child and an income of \$40,000 whose taxes have been cut by \$732 in 2003, a decline of 33 percent.
- Married couples with two children and an income of \$60,000 whose taxes have been cut by \$900 in 2003, a decline of 24 percent.
- Married couples with two children and an income of \$75,000 whose taxes have been cut by \$1,122 in 2003, a decline of 19 percent.

The Jobs and Growth Package completely eliminates the income tax burden for 3 million American families while creating jobs for Virginians.

“Virginia’s families and workers pay enough in taxes each year. Cutting taxes allows those who earn the money to keep more of it. This creates an atmosphere of innovation and opportunity for all Americans.”

George Allen
